

**TO US IT IS
WISE ENGINEERING.**

**TO YOU IT IS A
WISE CHOICE.**

Welcome to VB City. A community that has been created with facilities and amenities for a wholesome life, where you will see the wisdom of engineering optimised to give you space, comfort, convenience and sheer living pleasure. At a cost that is a delight for your budgets. Well, we sum it all up with two words - Wise Engineering. And you will sum it all up in two words - Wise Choice.

WISE ENGINEERING?

It is about enhancing existing living space to feel more expansive.

It is about thoughtfully creating everything around you and your needs.

It is about meeting your budgets without even a pinch of compromise.

A man with dark hair, wearing a grey button-down shirt and blue jeans, is sitting on a light brown leather sofa. He is playing an acoustic guitar. A bright yellow cushion is behind him. The background is a bright, modern living room with a white lamp and a white shelving unit.

WISE ENGINEERING?

**IS ENHANCING
LIVING SPACES.**

Our 2 BHK homes are crafted by optimising common areas to give you maximum living space that provides you with more breathing space in the kitchen, bedroom and the living room.

WISE ENGINEERING?

**IS CREATING
EVERYTHING AROUND
YOUR NEEDS.**

With lush coconut trees surrounding it's natural boundary, VB City boasts of fine amenities and facilities to give you wholesome living. It has everything that you would love to have close at hand - swimming pool, tennis court, badminton court, gym, yoga, salon, shopping, school... you name it, we have it.

WISE ENGINEERING?

IS MEETING YOUR BUDGET WITHOUT ANY COMPROMISE.

At VB City you can expect to see all elements that are delightfully upmarket. Every home here is embellished with world-class brands whom we partner with on all our projects.

THE WISDOM OF LOCATION MAKES A DIFFERENCE.

VB City finds itself delightfully placed in a location that is high on convenience and accessibility. While the community itself provides for complete living, it brings all your needs closer with easy access to major modes of transportation. In fact, an MMTS station facility at a walkable distance adds to the charm of living here. Being almost equidistant to both the Karimnagar and Nizamabad highways and nestled amidst established educational institutions make it a choice unlike any other.

LIFEMARKS THAT REFLECT THE PRUDENCE OF EXPERIENCE.

VB City is the initiative of INCOR, the group known for constantly breaking conventions to redefine a better lifestyle. Believing in the philosophy of creating homes and experiences that make life more enriching and meaningful, INCOR is building lifemarks, not landmarks.

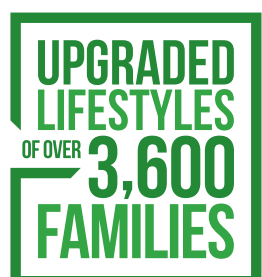

The Group started its journey with PBEL City Hyderabad which is now amongst the most sought-after gated communities in the city with more than 1,700 resident families. PBEL City Chennai followed and the concept of community living is thriving there too with more than 350 families calling it their home. Other INCOR projects include One City on the KPHB - Hitec City main road - a prominent hub for residential and lifestyle destinations - a thoughtfully designed project that is much sought after and finally, Divino Villas in Hyderabad, a gated villa community.
